Personally, I like it a lot better, but it's still too long, and dwells on stuff that I believe deflects us from where we want to land on this...just my 2cents!

Hi Folks:

A few edits from me and one to note from our Regional Administrator near the end. We can discuss later this morning if needed.

Folks -

Here is the NOAA clearance draft - a couple of significant changes to Mark and Marianne's draft from earlier this afternoon..

## Ex. 5 - Attorney Client

Our program leads have approved this version which broadens the focus from strictly forestry issues to include overall stream protection and several other issues that were identified as not yet having been addressed.

Likewise it is important to be transparent as to the fact that the public did have input and also to what this decision means - and hence we have inserted two paragraphs towards the end addressing both public input and

**Ex. 5 - Deliberative**

This language is as included in the rollout plan talking points.

Please get back to me by 2 p.m. EST tomorrow so that I can send this into NOAA clearance in time to meet next Friday's announcement deadline.

Thanks in advance for your assistance.

Ben S.

Thanks Lynda. It sounds like Ben may soon send a NOAA revision to this, so how about we send that to Travis?

Marianne,

I think this looks good overall and expect the tone is very close to what is desired.  
I have a few edits mostly for technical accuracy.

Has Travis seen this yet? If not when would you envision we send it to him?

Thanks,  
Lynda
